Celebrity Taco User Guide

- Upon loading into the Celebrity Taco website you are presented with a homepage displaying the site's logo, as well as a nav-bar with six options.
  - Home
    - Can view the logo of the site and navigate to other pages.
  - Latest Tacos
    - Lists all taco sightings in reverse chronological order in a panel format. Each sighting has the following features:
      - Celebrity Sighted
      - Sighting Title
      - Taco Type
      - Sighting Location
      - Sighting Description
      - Link to View Sighting
        - Upon clicking the link the user is redirected to a page containing the following:
          - Summary of celebrity name, taco type, and location
          - Image of the celebrity eating a taco
          - Map centered on sighting location with a marker indicating the specific address
          - Description of sighting
          - Space to add new comment
            - In order to add a comment, the user must be logged in.
          - List of all currently existing comments
      - Sighting Timestamp
  - Taco Map
    - Displays a map, the markers of which indicate the location of each taco sighting
    - Also contains a text-based list of each sighting, with links to a more detailed description for each sighting.
  - Report a Taco Sighting
    - Allows the user to submit a new taco sighting. User must input the following information:
      - Sighting Title
      - Sighting Description
      - Sighting Address
      - Sighting Geolocation
        - This information can either be auto-generated based on address, or entered manually
      - Celebrity Sighted
